## Brew Your Own Beer

Turn your team-building experience into a spirited competition with our 'Brew Your Own Beer' challenge, where teams compete to craft the most innovative and delicious brew. Guided by experienced brewmasters, participants collaborate, experiment with diverse ingredients, and unleash their creativity in a race to create the ultimate custom beer, adding an extra layer of excitement to this hands-on and unforgettable brewing adventure.

## My Kitchen Rules

Step into a culinary arena with our 'My Kitchen Rules' team-building activity, where colleagues transform into gourmet teams, navigating culinary challenges and bonding over the art of cooking to create a recipe for workplace success. From chopping challenges to delectable showdowns, savor the perfect blend of camaraderie and competition, making your team bond as they create a feast for the senses in this engaging and entertaining culinary experience.

## Mixology Mash Up

Shake up your team dynamics with our 'Mixology Mash Up' challenge, a spirited and interactive experience where colleagues collaborate to master the art of cocktail creation. Participants not only learn about mixology techniques but also work together to invent and name their signature drinks. The winning best cocktail (based on flavor, presentation, and creativity) becomes the bevy of the night!

## Distil Your Own Gin

Indulge in a hands-on journey of flavor discovery and art of distillation with our 'Distil Your Own Gin' activity, where you'll blend botanicals, distill your creation, and leave with a custom-crafted bottle of gin, embodying the spirit of team collaboration in every sip. Savor the satisfaction of creating your own bespoke spirit in this hands-on, aromatic adventure, perfect for gin enthusiasts and teams looking to blend camaraderie with craft.

## Great Bake Off

Whisk your team away for a delightful experience of bonding and creativity with our 'Great Bake Off' team-building activity. In this fast-paced and flavorful challenge, colleagues unite to craft delectable treats, that blends teamwork and delicious success. Teams are provided with a set of ingredients, utensils, and a baking theme, challenging them to think on their feet, strategize, and collaborate to produce the most impressive and tasty creations.

## Native Reforestation Indoor Workshop

This workshop not only engages our guests in a meaningful CSR project but also fosters a deeper connection to New Zealand's natural heritage. It aligns with environmental sustainability goals and provides a unique opportunity for team building and community engagement. Join us in a hands-on workshop to propagate native plants for reforestation projects. During the workshop, you will collaborate with local conservation organisations, ensuring that the selected plant species align with New Zealand's biodiversity and conservation priorities.

## Wheels of Hope, Build A Bike

"Wheels of Hope" embodies the spirit of community solidarity and compassion, empowering the less fortunate in South Island, New Zealand, with the means to improve their lives and build brighter futures. Through the provision of bicycles and support services, this CSR initiative seeks to create positive social change. Participants are divided into teams, each tasked with assembling a complete bicycle from a set of parts. With guidance from experienced facilitators, teams work together to follow assembly instructions and troubleshoot challenges, Let's ride together towards a brighter future for all!

## Eco-Friendly Seed Bombs for Biodiversity

This quick project not only fits within a shorter time frame but also allows guests to actively contribute to environmental conservation in the South Island. It's a hands-on, eco-friendly activity that can leave a positive impact on the community and aligns with the region's focus on preserving its unique biodiversity. After a brief presentation on the importance of native plants in the South Island's ecosystem and the concept of seed bombing as a sustainable way to support local biodiversity, we will break into teams and create seed bombs containing native plant seeds that can be distributed in designated areas.

## Upcycled Art Installation

Engage in a unique and collaborative activity that also serves as a visually impactful representation of our commitment to sustainability and creativity. Prior to the event, the guests collect recyclable or discarded materials such as plastic bottles, cardboard, old electronics, and other items that are typically considered waste. Then, join us at the event space, where we will partner with a local artist who guides the group in turning discarded materials into an inspiring art installation that raises awareness about waste reduction and recycling.

## Self Built Wildlife Habitats

Let's work together to create a brighter, greener future for all! Join us for a rewarding activity focused on conservation and habitat restoration in beautiful New Zealand. In this hands-on experience, your team will come together to construct wildlife habitats for native species, contributing to the preservation of the country's unique biodiversity. Guided by conservationists, teams work together to design and plan wildlife habitats tailored to the needs of specific native species, such as birds, insects, and reptiles. They consider factors such as food sources, shelter, and nesting sites, ensuring that the habitats will provide a welcoming environment for local wildlife.
